

MORE INFORMATION

Leadership Lab International (LLI) provides mentored, practical cross-cultural leadership development and discipleship training to equip young leaders in Transform (18-28 years) and BRIDGE (20-40 years) to serve on multicultural teams in God's kingdom work. Utilizing experiential learning, Bible teaching, cross-cultural team building and leadership development, spiritual formation, outdoor education, practical Christian ministry assignments, adventure education, character and life skill training, students are equipped and empowered to live in a Covenant Christian Community where they invest their lives into others as servant leaders who actively follow Christ.

VISION

The vision of LLI is to prepare a new generation of leaders to be equipped to serve on multicultural ministry teams in Jesus' Great Commission.

No young leader should be thrust into ministry without being mentored and trained.

LLI is a training ministry of Scripture Union and Send International
